

Job Title: Medical Assistant (phlebotomist/front desk/medical assistant)

Table Health's Mission and Values

Table Health's Mission: To engage citizens to be in control of their own health, living better, happier lives.

Table Health's Values: Redefining Healthcare through transparency, authenticity, and value.

"We are seeking a driven thoughtful individual with healthcare skills to help lead in our work to transform medical care to something better."

Direct Primary Care (DPC) is a membership-based model of care that is outside the insurance model of healthcare. With this type of care, physicians can expect to have a smaller patient panel, more time with patients where they create meaningful relationships. All staff experience freedom from insurance billing stress, and have a better work/life balance.

Skills

- Excellent communication skills - The ability to successfully exchange information/idea/emotions by speaking, writing, or using other communication applications such as email, slack, and an EHR
- Empathetic, compassionate, and willing to see and hear patients' needs - a way to connect to the emotion another person is experiencing and not the actual experience
- Clear, effective, direct, and honest written communication in SOAP note dictation
- Excellent attention to detail - the ability to achieve thoroughness and accuracy when accomplishing a task
- Ability to follow through on tasks - continue an action or task to its conclusion
- Ability to shift from one task to another with ease and calm
- Able to perform tasks independently and confidently
- Takes initiative - the power or opportunity to act or take charge before others do and the ability to assess and initiate things independently
- Respectful - Treating others the way you want to be treated. Being considerate and honoring the feelings, opinions, and property of others.
- Responsible - answerable, or accountable for something within one's power, control, or management
- Time management - the process of planning and exercising conscious control of time spent on specific activities, especially to increase effectiveness, efficiency, and productivity. Arrive on time for scheduled work
- A high level of emotional intelligence - the capacity to be aware of, control, and express one's emotions, and to handle interpersonal relationships judiciously and empathetically.
- Ability to learn and efficiently use EHR and other applications in a timely manner

- Critical thinking skills to solve problems - able to identify and define the problem, generate alternative solutions, evaluate and select the best alternative, and implement the selected solution
- Takes direction from leadership

Work Context

- Real-time interactions that take place at Table Health in Petoskey
- Ability to lift up to 25 pounds
- Ability to sit or stand for long periods of time
- Fluent in English
