

Part-Time Employed Phlebotomist

Table Health's Mission

Redefining Healthcare through transparency, authenticity, and value.

Purpose of this Position

The part-time Phlebotomist will be responsible for drawing blood and processing specimens from a diverse patient population, while demonstrating empathy and maintaining a calm demeanor. This job would be a great fit for someone who is already employed and wants to earn extra income in a place with excellent workplace culture. Approximately 8 hours per week.

Job Duties Include

- Conduct venipunctures and draw blood from patients ranging from infants to adults
- Utilize relevant technology related to specimen collection, processing, and documentation
- Collect and process payments for any applicable test charges
- Perform a variety of necessary testing, including glucose tolerance tests, rapid testing for flu, Covid-19, and pregnancy, and specimen collection for alternative testing companies
- Collect throat swabs and urine samples for microbiological testing
- Administer DOT drug and alcohol breath testing using DOT standards
- Provide basic first aid to patients who may faint during the puncture procedure
- Maintain cleanliness and organization in all work areas
- Regularly check expiration dates and conduct monthly inventory of lab and testing supplies

Education and Experience

- 1 -2 years of experience as a phlebotomist
- Certified Phlebotomy Technician (CPT) is preferred but not required

Work Context

- Fluent in English
- Sitting for periods of time
- Approximately 8 hours per week

Compensation and benefits

- $19-$20 per hour
- 20% off services outside of membership
- 25%-50% off professional-grade supplements
